Dear Dr. Zhang,

Thank you very much for your interest in our research and I feel that your background can fit nicely within our research group. This serves as an Invitation Letter for you to work in our research laboratory as a post-doctoral researcher at the University of Waterloo, Canada from **February 20, 2019** to **February 19, 2021**. Since your arrival, you will stay in my lab for two full years. While you are at the University of Waterloo, you will be given a title of Postdoctoral Research Fellow and be involved in various projects in our laboratory related to DNA, nanoparticles and their biological science and engineering applications. You will have access to the facilities in Department of Chemistry and Waterloo Institute for Nanotechnology.

It is understood that you will be visiting Waterloo for 2 years. You will be responsible for all costs associated with your visit and will be required to cover the cost of comprehensive medical insurance for the duration of your stay. All the expenses related to experiments in the lab will be covered by my research grants.

We look forward to your visit and expect that you, Fuzhou University and University of Waterloo will benefit significantly from the collaboration. Please tell me if there are ways I can be of further assistance.

We look forward to your visit at Waterloo soon!

With best regards,

A handwritten signature in cursive script that reads "Juewen Liu".
