

Dr Helge A Wurdemann
Lecturer in Medical Devices
Head of the Soft Haptics Lab

UCL Mechanical Engineering
University College London
Torrington Place
London WC1E 7JE, UK

Professor Jun ZHANG
School of Mechanical Engineering and Automation
Fuzhou University
Fuzhou, 350116
Fujian Province
People's Republic of China

23 June 2019

Name: Jun
Surname: Zhang
Passport Number: E04445374
Date of birth: 01/07/1981

Dear Prof. Zhang,

I, Dr Helge A Wurdemann, am writing to confirm that I wish to invite you, Professor Jun ZHANG, to visit my Soft Haptics Lab in the Department of Mechanical Engineering at University College London for a duration of 12 months between 1 July 2019 and 1 October 2020.

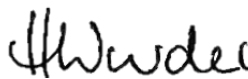

The purpose of your visit will be to conduct joint research in the area of parallel robots, in particular, in the kinematic error propagation, dynamic performance evaluation of parallel surgical robots. The research in our lab conducts research excellence in robotics, kinematics and mechanisms and we hold regular seminars for researchers in different areas to encourage the cross-disciplinary research.

We first met at King's College London in 2013 where you worked together with my PhD supervisor Professor Dai jointly publishing three high-quality research articles in international journals. With your strong background in dynamic analysis of parallel mechanism, I fully trust that we will be able to conduct excellent progress in the topic field.

I understand that the Chinese government will provide you with your travel, living expense and bench fees at University College London. I can guarantee you that my lab will provide the research facilities.

If you require any additional information, please do not hesitate to contact us.

Yours sincerely

Helge A Wurdemann
