

Invitation Letter

Dear Yuchuan Liu,

It is a pleasure to invite you to join my research group at the Nanyang Technological University (NTU) in Singapore from May 10th 2019 to August 8th 2019 (90 days) for collaborative work. The research topic is focused on “Design of advanced material for electrocatalysis and energy storage” and you will perform the scientific experiments with members in my research group. We will provide the necessary research conditions during your stay in Singapore. Your cost in Singapore will be covered by the fund of Excellent Youth Exchange Program of China Association of Science and Technology.

I look forward to welcoming you in our laboratory, as I am sure that both of us will substantially benefit from this collaboration.

Sincerely,

A handwritten signature in blue ink, appearing to read "jmllee".
