Invitation Letter

Dear Professor Qun Yan,

We are pleased to invite you to Japan for business and technology communications. The business trip starts from June 20 to June 22 in 2019. The location is in Tokyo & Akita TDK, Japan.

In this visiting, we focus on the development of display and high-end bonding technologies, and we also introduce our novel related machine. We really want to discuss future works in display development and establish a long-term corporation relationship with you. We are willing to meet your kind views on our business corporation proposal.

If you have any question, please notify us immediately. Your prompt reply would be highly appreciated. We would reply you ASAP.
