Re: Invitation to Attend the IEEE MDM 2019 Conference (June 10-13, 2019)

Dear Sheng Zhang, Feng Chen, Wen-Kang Jia and Huangneng Jiang,

On behalf of the Program Committee, I am pleased to inform you that your paper entitled "Mobile Video Multipath Concurrent Transmission over Heterogeneous Wireless Networks Based on ACO" has been accepted for the International Workshop on Mobile Ubiquitous Systems and Technologies, in conjunction with the 20th IEEE International Conference on Mobile Data Management (MDM). You are therefore cordially invited to present your paper in the conference, which will be held at Hong Kong Baptist University during June 10-13, 2019.

The MDM series of conferences, since its debut in 1999, has established itself as a prestigious forum for the exchange of innovative and significant research results in mobile data management. The conference provides unique opportunities to bring researchers, engineers, and practitioners together to explore new ideas, techniques, and tools, and exchange experiences. Along with the presentations of research publications, it also serves as a meeting place for technical demonstrations, workshops, advanced seminars, panel discussions as well as PhD forum and Industrial forum to cater PhD students and industrial developers.

Your participation will make the conference more valuable and successful. We look forward to meeting you in Hong Kong this June!

Yours truly,

Jianliang Xu
MDM 2019 Program Committee Co-Chair
