Prof. Ling Wu
Fuzhou University, China

Dear Prof, Wu,

On behalf of the conference chair and committees, we would like to invite you to present a Poster entitled "Photocatalytic Organic Synthesis over Monolayer Inorganic Oxide Nanosheets" on the 2020 EMN Hawaii Meeting, taking place at Sheraton Princess Kaiulani, Honolulu, Hawaii from March 17 to 21, 2020. Abstract officially accepted.

Detailed information is available on: <http://emnmeeting.org/2020-hawaii/>

The EMN meeting began in 2008 as a small workshop held at a traditional villa in Orland, Florida. Since then we have organized about 30 annual workshops all over the world under the theme of Energy, Materials and Nanotechnology.

The meeting will be a few days of intense collaboration with great social occasions. It will be not only a time to enjoy the company of fellow researchers in the field, but also a time to have fun with friends and colleagues.

We look forward to working with you at the 2020 EMN Hawaii and trust your presentation will thus add an important dimension to the topics of this meeting.

Sincerely yours,

A handwritten signature in purple ink that reads 'GOVOROV' with a long horizontal flourish extending to the right.
