Invitation Letter

To:

Jin Mengjia

School of Physics and Information Engineering, Fuzhou University, Fuzhou 350108, Fujian Province, P.R. China

Mobile: 86-13276049910

Email: 963767786@qq.com

Dear Jin Mengjia,

I am pleased to invite you to join my research group as a postgraduate exchange student to carry out collaborative research for ten months, preferably from August 1, 2019 to June 1, 2020. It is my understanding that, upon the completion of this visit, you will return to Fuzhou University to further explore the collaboration. Hopefully First-class Discipline Construction of G Physics and Information Engineering College 0490-50011004 will cover all the travel expenses and accommodations for your stay in Singapore. There will be no tuition fees during your stay at Nanyang Technological University.

This invitation is an indication of my satisfaction with your working experience and research background. From past communication activities, I have been fully convinced that your English could be adapted to the life and learning needs of Singapore. You will be working on the research topic of Research on Electrical Properties of New Materials and Electronic Devices. In particular, you will be carrying out collaborative projects on its electrical and energy storage characteristics.

Nanyang Technological University has leapt to the Number Two position in Times Higher Education's latest ranking of the world's best young universities. The Division of Physics and Applied Physics has well-equipped laboratories. We have all necessary supporting facilities to carry out the joint project. I am sure that your visit at Nanyang Technological University will be a fruitful experience for your career. I am looking forward to meeting you at Nanyang Technological University.

Sincerely yours,

Xiao Wang

Nanyang Assistant Professor
Division of Physics and Applied Physics
School of Physical and Mathematical Sciences
Nanyang Technological University
