Dear Fengying Wei

We are happy to invite you to visit our Biomathematics Research Group at the Department of Mathematics and Statistics of the University of Helsinki from 1 to 31 August 2019.

The aim of the visit is to continue our collaboration in course development, specifically, the writing of lecture notes for our joint project on stochastic population models with the intention to have the lecture notes eventually published as a textbook both in Chinese and in English.

We understand that you apply for a travel grant from the Chinese funding agency (NSFC, CAS or CASS) and that if the application is successful, the Academy of Finland will provide for the funding for local expenses including accommodation and a daily allowance. Our department will provide you with an office and a desk and the services of our department.

I am looking forward to your visit and to be working with you again.

With kind regards,

A handwritten signature in blue ink, appearing to read 'Stefan Geritz', written over a horizontal line.
